From the Editor's Desk —

As promised, this "November-December, 1956" issue of "Numisma" contains our Seventh Mail Bid Sale, closing on Monday, April 19th.

We would like to remind old friends, and strongly emphasize to new ones, that these mail bid offerings are completely unrestricted. Our consignors do not encumber us, and any of our own material listed must be sold. It is not worth the expense or trouble to protect or "buy-in" items, even if some realize low, "bargain" prices. For these reasons, we again strongly suggest that collectors and dealers bid as many lots as possible, correctly assuming that some of the less popular items will go cheap, permitting resale at a profit.

The purchaser of the 1794 Dollar, in our 48th Public Auction, at a true bargain price, as well as the other bidders present, can all testify that our sales are "unrestricted." Everything does not sell high, but after that cannot, and follow the natural laws of supply and demand.

Bid as liberally as you can on as many lots as possible. You will, without doubt, be pleasantly surprised.

Send these bid cards in early —

THE QUESTION FORUM

We invite our readers to submit any questions or problems relating to U. S., Early American or Canadian Coins, Medals, Tokens, Literature, etc., including Patterns, Restrikes and similar material. The questions of most general interest will be answered in detail here; others will receive written replies on receipt of a stamped self-addressed envelope.

Ques. I have a silver Castarland "Half Dollar" with a reeded edge, and a copper one from the same dies also with reeded edge. How can I tell if these are originals? *W. Z., Cliffside, N. J.*

Ans. Originals (we know only four specimens, including the one in our 48th sale) have old style letters in both obverse and reverse inscription; the dies perfect. CASTOR is closely spaced, the TO practically touching; date low, the 1 running into a denticle. In AMERICANA, first A low; ME below base arc line of RICANA. On reverse, letters rather irregularly spaced; UG touch at top, the G higher. There exist very early restrikes in silver and copper from the original dies; these show several rusted places on the dies, an especially prominent one being near the spout on reverse. Later, the reverse develops a bulge, then a break through S in PARENS. The earliest restrikes have reeded edges, but usually show ARGENT under the edge reeding on the silver examples and CUIVRE or BRONZE on the copper ones. After the die break occurred, a new reverse was cut copying the old one, but with letters somewhat more modern in style; the restrikes

from these dies usually have plain edges and the same word identifying the metal as above. Later, probably after the middle of the nineteenth century, new obverse and reverse dies were made as the old ones wore out, and a number of varieties appeared. It would hardly be worth while trying to describe these; the important distinction is between the simple pure originals (all seen being silver) and the earliest restrikes from original dies. See lots 76, 195, 196 following, in our seventh "Numisma" Mail Bid Sale.

Ques. Are any of the Southern State Notes issued after the Civil War still redeemable? I have an uncanceled \$10. State of Louisiana note dated Dec. 20, 1866, and due to your listing a canceled \$5., \$10. and \$20. in your Forty-Third Catalog, wonder if any of the notes are still redeemable. *R. J. L., Laurium, Mich.*

Ans. The Carpet Bag Legislatures of several Southern States, loaded with recently franchised negroes controlled by unscrupulous white politicians, authorized the issue of both notes and bonds, immediately following the Civil War. Notes have come to our attention from Arkansas, Florida, Louisiana, Mississippi, South Carolina and Tennessee. With the exception of the long known Mississippi issues of Sept. 1, 1870, and the commonly found "Revenue Bond Scrip" of South Carolina, dated March 2, 1872, these bills are quite uncommon and infrequently seen. In fact, new issues and varieties seem to continually appear, and to our knowledge, no specialist has ever made a serious study of this truly neglected paper money series. A small hoard of the post-war Louisiana notes appeared in Chicago, about three years ago. Just about all were punch and cut-cancelled. From a study of the obsolete security market, it would appear that none of the States involved have any interest in redeeming their bond issues. This being the case, it seems very unlikely that any of the notes under discussion would have any redemption value. Almost all of the Southern States that issued paper of any sort have a long record of defaults and repudiations. These states are protected in their defaults by the U.S. Constitution. No individual can bring suit against them. If a large block of uncanceled notes, representing one issue, were brought together, it could conceivably be possible to attempt to influence state officials to sponsor favorable legislation. However, this would be a million-to-one shot.

Ques. Where is a description and a discussion of the history of the "General Beauregard" Dime to be found? *C. H., Barnard, Mo.*

Ans. The Beauregard "Dime" is a medalet, though generally known by the first appellation. For the benefit of any of our readers not familiar with the piece, we might say that it represents one of the most interesting and rare metallic emissions of the Confederacy. The obv. portrays the head of Beauregard, facing left, G.T. BEAUREGARD. BRG. GEN. C.S.A. around; C. R. below head, the initials of the engraver. Upon the rev., within a wreath, MANASSAS/21/JULY. /1861. Struck in silver, the approximate size of a Ten Cent piece, this medalet has finely beaded borders and a reeded edge. It is generally found pierced, apparently for suspension. The first known specimen was sold by a Confederate soldier in New York, who supplied the information that it was one of a number presented by the City of New Orleans immediately after the battle of Bull Run. This impression, with the original red ribbon still attached, found its way into the collection of Dr. Thomas Addis Emmet, of N. Y., who had a fondness for relics and memorials of the Civil War. Under "Remarkable Confederate Medals," the Beauregard Medalet was first written up in the American Journal of Numismatics for 1868, Vol. II, p. 95. There has been next to nothing published since; in fact, it is extraordinarily difficult to locate even a public sale record for the piece. The late Woyte Raymond owned a beautiful unholed example, which we sold for him several years ago. For an illustration of the Raymond medalet, together with similar material, see "Confederate States of America, Coins and Tokens," in the Coin Collector's Journal for 1946, Vol. XIII, p. 38. It is our thought that the Beauregard "Dime" was struck in Paris, as was its companion piece the Jefferson Davis Medalet, both being the work of the same engraver. Who ordered the striking of this Beauregard item, the number struck, as well as the identity of the die cutter "C. R.," remains unknown. Since a strike of the Davis "Confederate Dime" in gold is extant, it would seem probable that the Beauregard piece exists in the same metal. We know of but three or four examples in silver, but others must lie in some cluttered cabinet or musty junk box.

EPN

- 1 **MID-WESTERN CONSIGNMENT. Gold Dollars.** 1849. Type III: large head with L; open wreath. Marked "Unc.", this is actually just a shade from it, though not too sharply struck in center.
- 2 1849 "O". Type III, open wreath, as always. Ex. Fine or better. Type coin: only New Orleans gold dollar with open wreath. Due to increase in value as such.
- 3 1851 "O". Larger mintmark than on last VF; sharp, but a nick or so short of EF.
- 4 1852 "O". Ex. Fine plus. More than twice as scarce as last two.
- 5 1853 "O". EF-AU, the obverse particularly nice.
- 6 1859 "S". Better than VF. Decidedly uncommon, as only 15,000 were struck.
- 7 **Quarter Dollars.** 1821. Browning 4A. Unpublished crack through E of UNITED. Though marked "Unc.", this has faint signs of friction on clows and on one fold of drapery; genuine "cabinet friction."
- 8 1831. Large date and letters. B-5. Ex. Fine plus, tarnished. Scarce: lists \$20 Unc.
- 9 1831. Small date, large letters. B-6. Fine or better. Rare variety (R-5), rarer than the last; should bring \$7.50 or more, if the other is worth \$6.50 Fine.
- 10 1833. Period after C. B-1. Would approach EF but has a small X scratched left of date. Also, 1837. B-2. F-VF. 2 Pcs.
- 11 1834. No period after C. B-1. Better than EF; lustrous and with pleasing tone. Type coin.
- 12 1835. Close date; period after C. B-5C. Like the last in condition.
- 13 1837. B-2. Ex. Fine or so; weak strike as usual with this variety.
- 14 1838. B-1: Bust type. Uncommon (366,000 coined). Also 1839. Lib. Std., no drapery. Both Fine or better latter close to VF but cleaned long ago. 2 Pcs.
- 15 1840 "O". No drapery. Mintmark far to left, over A. Marked "Unc." but actually EF plus; deeply toned.
- 16 1840 "O". Drapery. Mintmark in usual place EF-AU lustrous beautiful blue toning.
- 17 1842 "O". Large date. VF or better unevenly tarnished.
- 18 Duplicates of last two. VF or so first dull second cleaned, both marked "Unc." 2 Pcs.
- 19 1844. Aht Unc. choice. Attractive bluish toning. Now lists at \$12.50 Unc.
- 20 1845 **Proof**; pale golden tone. Excellent surface square border wire edge on rev. but flat at breasts and eagle's left leg indicating careless manufacture not wear. Worth a good price!

- 21 1848 Double cut date EF, deep blue and russet toning. Rare
- 22 1819 1851. Ex. Fine, though both were marked Unc. Scarce
dates 2 Pcs.
- 23 1854, 54 "O", 57, 58 "O", 60 "O" EF cleaned VG (re-cut
date, struck from badly rusted dies), VF, VG, VF (very
weakly cut mintmark) 5 Pcs.
- 24 1856, 59, 60, 61 VF/EF, EF lustrous VF cleaned, VF-EF 4
Pcs.
- 25 1856 "S". Would be Fine, but clank skillfully removed from
obv. and drapery re-engraved to something like normal ap-
pearance. Better than it sounds. Rarer than the highly touted
1855 "S"; only 286,000 minted in contrast with 396,400 of
the earlier date.
- 26 1858 **Brilliant Proof**, now acquiring a beautiful light purple
tone. The Guidebook valuation ridiculously low.
- 27 1858 "S". Fine, weak flat strike; long obv. scratch. Full
LIBERTY. Reverse fully Fine, and we have seen worse coins
called "VF". Less than one-third as many minted at this
as of the overrated 1855 "S".
- 28 1859 "S". Obv. nearly VG (part of LIBERTY shows), rev.
strictly VG or better. Even wear, no serious blemishes. Very
rare, only 80,000 minted; underrated in comparison with
earlier dates, and of considerably lower mintage than even
the 1878 "S".
- 29 1873 "S". Arrows. About V. Good, weak flat strike; almost full
LIBERTY. Very popular.
- 30 1876, 76 "S" (2), 76 "CC" Fine reeding (RR), 77 77 "S"
Though all are marked "Unc." except the first, they grade
choice VF to EF. 6 Pcs.
- 31 **Barber Type**, 1892. Type I. Wino covers less than half of F in
UNITED. Lightly toned "gem" Unc. Much scarcer than Type
II.
- 32 1892. Type I. Same condition, same dies as last and worth
as much.
- 33 1892. Type II. Unevenly toned **Proof**. At least four times as
rare as a 1936 Proof.
- 34 1892 "O". Type II. Unc., weak strike as often seen. Deeply
toned.
- 35 Another, exactly as last; hints of cabinet friction on eagle's
head, forelock and nose.
- 36 1893 "O". Though labeled Unc., this has been cleaned to such
an extent that AU would be a safer grade. Reverse quite
lustrous. Not as bad as it might sound.
- 37 1895 "O". Marked "Unc. Brill.", this is EF; reverse especially
sharp and lustrous.
- 38 1898. Unc., pale coppery tone. Faint signs of a brief sojourn
in a bag.
- 39 1902. "Gem" Unc., blue and russet toning.
- 40 1902 "S". Broken S, the top gone; apparently from an imper-
fect punch. Labeled "Unc." and said to be very rare. It is
VF-EF and cleaned, but the first we remember seeing.
- 41 1905. Gray toned Unc. Struck flat at arrow butts elsewhere
sharp.
- 42 1906. Cleaned **Proof**, now retarnishing.
- 43 1907 "O". Unc., light golden tone; bag marks one on right
wino serious.
- 44 1908 "D". "Gem" Unc., pale greenish tanina.
- 45 Another 1908 "D". Unc., pale pinkish gray tone.
- 46 1908 "O". "Gem" Unc., light golden and bluish tone. Square
borders and wire edges, but still only a first strike.
- 47 Duplicate. Was Unc., but poorly cleaned; AU would now be
liberal.
- 48 1909 and 1910 "D". EF and VF. 2 Pcs.
- 49 1909 "D". Choice Unc., russet toning.
- 50 Another 1909 "D". Almost Superb, toned greenish-blue and
other natural hues.
- 51 1910. Though this was labeled "Brill. Proof", we will call it a
"gem" first strike and say that the obverse borders and
edges are square but that the fields are not of the depth one
expects on a real Proof. Beautiful light toning.
- 52 1911. Exactly as preceding. Premium coin!
- 53 Another 1911. "Gem" Unc., beautiful light toning.
- 54 A third. Brill. Unc., obverse showing signs of bag handling
reverse choice and with an unusually varied array of colors.
It would be a crime to clean this one!

- 1914 "D" Unc., bag marked Pale gray toning.
 6 1914 "D" and 1916 "D". Abt. Unc. 2 Pcs.
 57 1915 "D". Unc., first strike; acquiring a nondescript grayish tone on obv.
 58 **Liberty Standing.** 1917 "D". Type I Unc., practically full head, shield and knee; brown toning.
 59 Another as last, lighter toning. Minute bag mark on knee.
 60 1917 "D". Type II. Lightly toned Unc., head partly up.
 61 1918 "D". VF-EF, though labeled "Unc." Usual strike.
 62 1920 "S". Lightly toned Unc. Almost full head and knee.
 63 1924, 25, 26 "D", 27 "D", 28 "D". Third VF, rest EF or better with lustre, first and fourth with full heads. 5 Pcs.
 64 1926. Toned Unc.; just about full head and knee, shield partly up.
 65 1926 "S". Marked "Unc. brill.", this lustrous coin shows signs of rubbing on the high points. Head and knee partly up; eagle side just about fully sharp.
 66 1927. Mostly brilliant Unc., almost full head and shield, full knee.
 67 Duplicate. Brilliant, sharper than last, but evidently cleaned long ago.
 68 1928 "S". Large and plainly recut S. Brill. Unc., almost full head, full knee, nearly full shield. Scarce.
 69 1928 "S". Small S. (The S is less than half the height of the adjacent star, whereas on the preceding it is more than half the height of the star.) Toned Unc., choice; head and shield partly up, knee practically full. Worth having for comparison with the last.
 70 1929 "D". Unc., light toning; almost full head, full knee, nearly full shield.
 71 1929 "S" and 1930. First VF/EF though labeled Unc.; second bag marked Unc., full head and knee. 2 Pcs.
 72 1930 "S". Brill. "gem" Unc., acquiring dark blue tone. Practically full head and knee; shield weak as often seen.

Silver impression from the original dies after the reverse had developed traces of rust, but before the die break came. **Thick flan, reeded edge as on originals.** Without ARGENT or mintmaster's symbol characterizing restrikes. **Possibly contemporaneous.** Cleaned Proof. We hesitate to call this an original without qualification, solely because of the traces of rust. In any event, it is just about as rare as the T. J. - 1 **MID-WESTERN CONSIGNMENT. Gold Dollars.** 1849 Type III: large head with L; open wreath. Marked "Unc.", this is actually just a shade from it, though not too sharply struck in center.
- 2 1849 "O". Type III, open wreath, as always. Ex. Fine or better. Type coin: only New Orleans gold dollar with open wreath. Due to increase in value as such.
- 3 1851 "O". Larger mintmark than on last. VF, sharp, but a nick or so short of EF.
- 4 1852 "O". Ex. Fine plus. More than twice as scarce as last two.
- 5 1853 "O". EF-AU, the obverse particularly nice.
- 6 1859 "S". Better than VF. Decidedly uncommon, as only 15,000 were struck.
- 7 **Quarter Dollars.** 1821, Browning 4A. Unpublished crack through E of UNITED. Though marked "Unc.", this has faint signs of friction on claws and on one fold of drapery; genuine "cabinet friction."
- 8 1831. Large date and letters. B-5. Ex. Fine plus, tarnished. Scarce; lists \$20 Unc.
- 9 1831. Small date, large letters. B-6. Fine or better. Rare variety (R-5), rarer than the last; should bring \$7.50 or more, if the other is worth \$6.50 Fine.
- 10 1833. Period after C. B-1. Would approach EF but has a small X scratched left of date. Also, 1837. B-2. F-VF. 2 Pcs.
- 11 1834. No period after C. B-1. Better than EF; lustrous and with pleasing tone. Type coin.
- 12 1835. Close date; period after C. B-5C. Like the last in condition.

- 13 1837, B-2. Ex. Fine or so; weak strike as usual with this variety.
 - 14 1838, B-1. Bust type. Uncommon (366,000 coined). Also, 1839, Lib. Std., no drapery. Both Fine or better, latter close to VF but cleaned long ago. 2 Pcs.
 - 15 1840 "O". No drapery. Mintmark far to left, over A. Marked "Unc.", but actually EF plus; deeply toned.
 - 16 1840 "O". Drapery. Mintmark in usual place. EF-AU; lustrous, beautiful blue toning.
 - 17 1842 "O". Large date. VF or better, unevenly tarnished.
 - 18 Duplicates of last two. VF or so, first dull, second cleaned; both marked "Unc." 2 Pcs.
 - 19 1844. Aht. Unc., choice. Attractive bluish toning. Now lists at \$12.50 Unc.
 - 20 1845. **Proof**; pale golden tone. Excellent surface; square border, wire edge on rev., but flat at breasts and eagle's left leg indicating careless manufacture, not wear. Worth a good price!
-

- 25 1856 "S". Would be Fine, but shank skilfully removed from
abv. and drapery re-engraved to something like normal ap-
pearance. Better than it sounds. Rarer than the highly touted
1855 "S"; only 286,000 minted in contrast with 396,400 of
the earlier date.
- 26 1858. **Brilliant Proof**. now acquiring a beautiful light purple
tone. The Guidebook valuation ridiculously low.
- 27 1858 "S". Fine, weak flat strike; long obv. scratch. Full
LIBERTY. Reverse fully Fine, and we have seen worse coins
called "VF." Less than one-third as many minted of this
as of the overrated 1855 "S".
- 28 1859 "S". Obv. nearly VG (part of LIBERTY shows); rev.
strictly VG or better. Even wear no serious blemishes. Very
rare, only 80,000 minted; underrated in comparison with
earlier dates and of considerably lower mintage than even
the 1878 "S".
- 29 1873 "S". Arrows. About V. Good, weak flat strike; almost full
LIBERTY. Very popular.
- 30 1876. 76 "S" (2), 76 "CC" Fine reeding (RR), 77, 77 "S".
Though all are marked "Unc." except the first, they grade
choice VF to EF. 6 Pcs.
- 31 **Barber Type**. 1892. Type I. Worn covers less than half of E in
UNITED. Lightly toned "gem" Unc. Much scarcer than Type
II.
- 32 1892. Type I. Some condition, some dies as last, and worth
as much.
- 33 1892. Type II. Unevenly toned **Proof**. At least four times as
rare as a 1936 Proof.
- 34 1892 "O". Type II. Unc., weak strike as often seen. Deeply
toned.
- 35 Another, exactly as last; hints of cabinet friction on eagle's
head, forelock and nose.
- 36 1893 "O". Though labeled Unc., this has been cleaned to such
an extent that AU would be a safer grade. Reverse quite
lustrous. Not as bad as it might sound.

- 37 1895 "O". Marked "Unc. Brill.", this is EF; reverse especially sharp and lustrous.
- 38 1898. Unc., pale coppery tone. Faint signs of a brief sojourn in a bag.
- 39 1902. "Gem" Unc., blue and russet toning.
- 40 1902 "S". Broken S. the top one; apparently from an imperfect punch. Labeled "Unc." and said to be very rare. It is VF-EF and cleaned, but the first we remember seeing.
- 41 1905. Gray toned Unc. Struck flat at arrow butts, elsewhere sharp.
- 42 1906. Cleaned **Proof**, now retarnishing.
- 43 1907 "O". Unc., light golden tone; bag marks, one on right wing serious.

- 45 Another 1908 "D". Unc., pale pinkish gray tone.
- 46 1908 "O". "Gem" Unc., light golden and bluish tone. Square borders and wire edges, but still only a first strike.
- 47 Duplicate. Was Unc., but poorly cleaned; AU would now be liberal.

- 49 1909 "D". Choice Unc., russet toning.
50 Another 1909 "D". Almost Superb, toned greenish-blue and other natural hues.
51 1910. Though this was labeled "Brill. Proof", we will call it a "gem" first strike and say that the obverse borders and edges are square but that the fields are not of the depth one expects on a real Proof. Beautiful light toning.
52 1911. Exactly as preceding. Premium coin!
53 Another 1911. "Gem" Unc., beautiful light toning.
54 A third. Brill. Unc., obverse showing signs of bag handling, reverse choice and with an unusually varied array of colors. It would be a crime to clean this one!

- 169 **Bechtler Half Eagle.** A. BECHTLER. 5 DOLLARS. CAROLINA GOLD. 141 G. 20 CARATS. Very Fine, and as good as this piece ordinarily comes, despite two edge nicks. This is in fact the rarest regularly issued August Bechtler coin. It is also slightly bolder than the pieces illustrated in the Standard Catalogue and Guidebook. Of great interest, and seldom offered.
- 170 **Small California Gold.** Octagonal Quarter. 1874. Small Liberty head, 13 five-pointed stars. Rev. $\frac{1}{4}$ DOLLAR CAL. in wreath, 12 berries. Burnie 96; Lee 74. Unc., proof surface. Has been lacquered, but this is no impairment. Should bring \$5 to \$7.50.
- 171 Round Quarter. **Unlisted.** 1871. Small Liberty Head, G under it; 13 blobs for stars. Rev. $\frac{1}{4}$ DOLLAR CAL (no period visible) in wreath, 7 berries. Wreath broken right of R. Obv. B-76, Rev. New. Ex. Fine or so. Rare; T. J. Clarke had none.
- 172 Octagonal Half. 1871. Small Liberty Head, G (partly double cut) below; 7 tilts r. Rev. * HALF DOLLAR CAL (no period) in wreath, 7 berries. B-56; Lee 34. V. Fine, rev. rubbed. Rare, like the last; none in the Clarke collection.
- 173 Round Half. **Unlisted.** 1853. Large Liberty head, 12 stars around, first at top neckline, 8th touching curl. Rev. HALF D. CALIFORNIA GOLD around wreath, date within; like B-14 but six berries, not five. Reeded edge. Obv. B-14, Rev. New. Ex. Fine, high wire edge. This variant also not in Clarke, and presumably rare.
- 174 Octagonal Dollar. 1871. Large Liberty head, 13 stars around; G and date below. Rev. CALIFORNIA GOLD. around, 1 (large) DOLLAR in wreath, 8 berries; double bow. B-55; L-35. V. Fine, rev. rubbed. Fourth and last not-in-Clarke variety. RR.

Old and new arms in cartouches. C.W. 143. EF-AU, obv. planchet defect at rim. Said to be the largest silver coin ever issued in the Western Hemisphere; diameter almost 2 inches, or considerably larger than a \$50. slug. RR, limited mintage; in great demand among collectors of crowns and their multiples. Selling to \$75.00.

- 193 1788. New Jersey Cent. Morristown Mint. Boyd 316: Maris 67-v. R-1; BV 25¢. Fine-15, the reverse nearly VF. This is a type coin; three stars in obverse legend.
- 194 1766. Pitt "Halfpenny." Very Good.
- 195 1796. Castorland "Half Dollar." Silver impression from the **original dies** after the reverse had developed traces of rust, but before the die break came. **Thick flan, reeded edge as on originals.** Without ARGENT or mintmaster's symbol characterizing restrikes. **Possibly contemporaneous.** Cleaned Proof. We hesitate to call this an original without qualification, solely because of the traces of rust. In any event, it is just about as rare as the T. J. Clarke original which we sold last November for \$72.50, or in other words RRR.
- 196 Similar. From original dies as last, but struck a few years later in copper. Toned proof. Reverse shows more advanced rust and the faintest trace of a crack at S in PARENS. Plain, irregularly rounded edge, stamped CUIVRE and pointing hand. Entirely unlike later restrikes; far more rare, valuable and desirable. Worth having for reference, as the rare originals are from these identical dies, and no ordinary photograph will suffice to identify them. Ex Brond. RR.
- 197 (1783) Cent. Washington Double Head Variety. Close to Fine.
- 198 1783. Cent. Washington Draped Bust. Lincoln restrike; copper, enrailed edoe. Proof, not especially choice.

- 264 **1867. Rays.** Really Unc., but quite weakly struck. High wire edge as on Proofs. Rare.
- 265 **1868. Abt. Unc. Lustrous,** but "tauched up" with an eraser by same imbecile.

- 273 **1876. Brill. Unc.**
- 274 **1883. Liberty, with CENTS. Unc.,** superficially dulled; dñmania would make it approach "gem" grade.

- 300 1837. **Small 5 C.** V-2. Just about VG, everything clear. Fully acceptable example of a rare type, less often seen than 1853 "O" without arrows.
- 301 1837. Liberty seated; without stars. Small date, as in 1838. Ex. Fine or better. Popular type coin.
- 302 Duplicate. Just about VG, part of LIBERTY readable. Popular!
- 303 Assortment of dates, 1838 to 1859, with some duplicates; all Phila. except an 1851 "O". Good to VF (3), average VG plus. 19 Pcs.
- 304 1860, 61, 62, 68 to 73 inclusive. Fine to EF (1), average F-VF. 9 Pcs.
- 305 **Dimes.** 1805. Four berries. Obv. about Good, strong date; rev. Fair.
- 306 Duplicate. Similar condition, but obv. edge dent which has bent the coin.
- 307 1807. Strictly V. Good, but bent.
- 308 **1809.** Good or better. Obv. planchet cracks. Weak at left as usual.
- 309 1814. **Small date.** V. Good. Badly injured reverse die. This variety is many times rarer than the Large Date type, just about as rare as 1809 in fact. Probably 44,500 coined, at the beginning of the year. Date punches as in 1809-11.
- 310 1814. Large date, no period after C. Good or better; severe die injuries. Even wear; obverse stronger than reverse.
- 311 1820. Large O; oldstyle letters, similar to 1814. V. Fine, obv. deeply toned.

316 1823/22. Small E's. EF-AU, rather weak strike, but considerable lustre. Attractive natural rainbow tone. Rarer than commonly supposed.

318 1828. Large date. Good, very strong obverse. Only 15,000 coined, Feb. 8, 1828.

320 1837. Liberty seated; without stars. Large date. Strictly VF.
321 1837. Same. Small date. Better than VF, nearly EF. Like last, in strong demand.

- 324 **1844.** V. Good. Even wear, no nicks, dents or scratches; part of LIBERTY readable.
- 325 **1846.** An exact match for the last, though a little more toned. Greatly underrated in comparison with the 1844, as specimens do not turn up much more frequently.
- 326 1849, 50, 52, 57. Fine, VG (2), Fine. 4 Pcs.
- 327 **1853. Without arrows.** Good/VG, most of LIBERTY readable. Rare; only 95,000 coined, and many of them melted.

- 329 1860 "S" with stars: 1860 with legend. First VG plus with rev. scratch; second VG or so, dark tone. Both are type coins, and the first is considerably undervalued. 2 Pcs.
- 330 Another 1860 "S". V. Good, strong; full LIBERTY. It is not

often that two of these in any grade are offered at the same time. We have seen worse sold as "Fine."

- 331 **1865 "S".** Fine, but weakly struck. Obv. field nick. Limited mintage.
- 332 Another. Better than Fine. All these early "S" mint dimes are unappreciated.
- 333 **1866 "S".** Exact match for last, but even lower mintage.
- 334 Duplicate. Just about Fine, but weakly struck.
- 335 **1867 "S".** Could be called VG except for its reverse nick. Also underrated.

- 336 1868, 71, 72, 73 no arrows. Fine to VF. Uncommon dates. 4 Pcs.

- 343 1887 "S" and 1890 "S". EF plus, lustre; VF/EF, partial lustre. Curiously, both have mintmarks filled up by die defect, though they are from different dies. 2 Pcs.
- 344 1890 "S", 1891 "O". Abt. Fine; Good plus. Second decidedly scarce and a type coin: Only "O" mint of this type, 1860-91, except for the very rare 1860 "O". 2 Pcs.
- 345 1926. Mercury. Brill. Unc., just as it came from the bag.
- 346 1936. **Brilliant Proof.** This is the rare second issue. It has four black spots, but we anticipate that its next owner will promptly dip the coin with complete success.
- 347 **Twenty Cents.** 1875. Slightly impaired Proof, the imperfections consisting of a few minute field nicks.

354 Fourth. Good/VG. Sells well in any condition!
355 Fifth and last. Same grade, but nicked on edges.
356 **Quarters. 1796.** High 6. Browning 2. Fine; two planchet defects
at rim. The recently sold Taffs and Bostic coins had similar
planchet defects, and were from the same dies, suggesting
that all three were made from the same strip of metal which
split the same way under the planchet cutter. The Bostic
coin, called Strictly Fine, brought all of \$200. It is no
sharper than this one except for being a trifle stronger at
eagle's head.
357 1828. B-4. Just EF, nicely toned and with traces of lustre.
Quite scarce.
358 1836. B-2. F-VF. Obverse with advanced cracks as described
by Browning; rev. perfect die. Very scarce variety; first seen
of this die state.
359 1838. Draped bust. Only the one variety. V. Fine plus. Priced at
\$10.50.

- 384 As last; considerable dark tanning at borders. Guidebook \$47.50.
- 385 **Silver Dollars.** 1795. Balender 1. Flawing hair; two leaves. V. Gaad, two field scratches; not quite bold enough for Fine.

- 387 1872. Very Fine plus.

- 390 1876. Type II; no berry under claw. F-VF.
